

MFD's & Sustainability

Build a sustainable business and future with Milner

At Milner, we firmly believe in prioritizing the environment and communities in everything we do. We work exclusively with organizations that share our commitment to protecting our planet and its resources, ensuring that the products and services we offer are produced in an environmentally conscious manner. Our dedication to environmental responsibility and community development sets us apart, and we are proud to be leading the way towards a more sustainable and socially conscious future.

Additional Requests

Local Devices

- Optimization - Multiple users sharing one single device
- Included B&W prints

Sustainability

- Printers are not saturated with overuse
- Lower cost overall
- Smaller eco footprint

We Recycle Your Toner

Milner will retrieve all cartridges that are properly disposed in labeled bins and recycle - With no additional hassle for you

Emory University, renowned for sustainability, established its Office of Sustainability Initiatives (OSI) in 2006 to restore ecosystems and promote healthy living while minimizing local environmental impact. Partnering proudly, Milner supports Emory's efforts with annual donations and proactive measures to reduce paper usage.
